

Product Details **NVR-7508-P-M**

NVR-7508-P-M Datasheet

8CH POE Output

8CH 12/8MP IP Camera Input

Support Human Vehicle detection AI Function

1 SATA HDD Slot

Features

The embedded Linux real-time operating system realizes various practical functions such as centralized management of IPC, centralized preview, centralized recording, and alarming.

Support H.265 video encoding stream, support mixed access of H.265 and H.264 devices

Supports ONVIF protocol to ensure interconnection of network video surveillance products

Supports G.711U and G.711A audio compression to realize real-time monitoring of video recordings

Support one-click addition, automatically modify the camera IP address to add

Supports query and backup of logs, videos, and other information

Supports AC18 Plus cloud service and remote monitoring of mobile devices such as mobile phones and tablets.

Supports VGA and HDMI interfaces to output video signals at the same time (same source), VGA outputs up to 1080P; HDMI outputs up to 4K

Supports preview, storage and playback of high-definition network videos up to 8MP pixels

Support 1 SATA interface
